DRL AND DHDS-63

The DRL-048 comes with 7, and the DRL-072 comes with 10 adjustable disc heads to quickly seed grass, corn, beans, oats and more. The seeder is equipped with two stainless steel boxes with closeable slides for each row, so you can apply fertilizer to each row while planting.

The DRL is designed to be used as a secondary tillage tool. Ground conditions need to be disced or tilled prior to use.

The DHDS-063 is a durable disc harrow with seeder. It is equipped with 7 disc heads in the front and back, which efficiently cuts and pulverizes the soil, creating an ideal seedbed for optimal germination. With its adjustable disc heads and precise seed metering system, the DHDS-63 provides accurate and uniform seed distribution

SPECIFICATIONS:

Model	Working Width	Working Depth	Min HP Req	Front Cup/Rear Cups	Spacing	Double Disc Openers	Cat. Hitch	Weight
DRL-048	48"	3/4" - 2"	15	7	7"	7 sets	1	569 lbs.
DRL-072	68"	3/4" - 2"	20	10	7"	10 sets	1 & 2	625 lbs.
DHDS-63	63"	3" - 4"	25	7	-	N/A	1	803 lbs.

SAYA-500 SERIES NO-TILL DRILLS

The SAYA-505 (55") & SAYA-507 (78") got a facelift! They are still cost effective Light Duty No-Till Drills with front coulter package, but with new and improved features.

The 505 has 7 and the 507 has 10 swept back spring loaded double disc openers making seeding easy and economical. The Large seed and Legume cups allow for precise seeding in a no-till operation. Stainless steel hoppers prevent rust and keep your drill in fine working shape for years to come.

FEATURES:

- Painted Stainless Hopper is 50% Thicker (from 22ga to 16ga)
- Welded Category 1&2 Hitch Blocks
- Metal Bearing Cap
- Longer Adjustment Rods for Additional Depth
- Rubber Hold Down Straps
- Punched Scraper Plate for Better Seed Coverage
- Powder Coated Paint

SAYA-900 SERIES NO-TILL DRILLS

With the introduction of the SAYA-907, the Tar River line up becomes even more flexible for all your seeding needs.

The SAYA-907 has a 78" working width and comes with a 3 compartment seedbox which contain 3 different seedcups for seeding of any type of seed.

The front section comes with a dual section seedcup that splits between large seeds (corn and soybean sizes) to grass seeds such as wheat and rye. The middle section has a flow adjustable gearbox with special gear seedcups designed for the fluffy warm season Native grasses. There is no need to change chains and sprockets to adjust the flow. A simple handle on the gearbox smoothly increases or decreases seed output.

Both the front and middle seedcups feed into a heavy cast iron double disc opener. The rear box contains high precision metering seedcups for the tiny legume seeds. Seeds dispersed from these cups are spread out behind the machine in order to prevent them from becoming buried too deep.

SPECIFICATIONS:

Model	Working Width*	Working Depth	Min HP Req	Front Cup/Rear Cups	Spacing**	Double Disc Openers	Cat. Hitch	Weight
SAYA-505	Up to 55"	3/4" - 2"	30	7	7.5"	7 Sets	1 & 2	1,050 lbs.
SAYA-507	Up to 78"	3/4" - 2"	35	10	7.5"	10 Sets	1 & 2	1,420 lbs.
SAYA-907	Up to 78"	3/4" - 2"	35	10	7.5"	10 sets	1 & 2	1,499 lbs.

* Models can seed up to working widths by increasing spacing from 7.5" to 7.8"
**7.5" spacing allows for a 52.5" and 75" working width on 55" and 78" models (respectively)
